<p>Summary of the Event</p>	<p>Teachers' Day in India is celebrated on 5 September every year to commemorate the birth anniversary of Dr. Sarvepalli Radhakrishnan - First Vice President of India and the Second President of India and an educationist at heart. While globally, Teachers' Day is celebrated on 5th October; in India, we celebrate it on 5th September from 1962 onwards.</p> <p>Sri M G Sekharam explained that As the common adage goes, the future of a country lies in the hands of its children and teachers, as mentors, can mould students into future leaders who shape the destiny of India. They play an important role in our lives to become successful in career and business. They help us to become a good human being, a better member of the society and an ideal citizen of the country. Teacher's Day is celebrated to acknowledge the challenges, hardships and the special role that teachers play in our lives.</p> <p>Dr KVS Raju explained about importance of various types of Gurus in India. Further, he added that teaching is not a profession but "Jeevan Dharm" (a way of life) and asked teachers to understand changes happening across the world so that they can prepare the new generation to face them. In fact, it is a divine responsibility to guide and enlighten. He also said that India should regain the status of 'Vishwaguru' (leader in education) by giving high respect to teachers whom he asked to encourage students to think critically about issues concerning nation. He told that "<i>Teachers determination and sincerity will shape the destiny of the nation as they are laying foundation and the building blocks of the society</i>".</p> <p><i>Dr J Praveen</i>, Explained that Teachers nourish and prepare students their future as they are the real icon of knowledge and wisdom. He created awareness among the Teaching staff and Non teaching staff. They are the source of light in the world that has been darkened due to ignorance. Our teachers are the true pillars of our success. They helps us garner knowledge, improve our skills, grow confidence as well as they help us to choose the right path to success. But, despite playing such a crucial role in the lives of students and in nation building, they rarely are shown the gratitude that they deserve. So, as a student it is our duty to thank them at least once a year and Teachers' Day gives us an ideal opportunity to do so!.</p>
