Summary of the Event

ICMED 2021 followed double blind review with minimum of two reviewers for each paper submitted. Care has been taken for plagiarism of all the article. Licensed plagiarism tool (Turnitin and Plagiarism Checker X) have been used and ensured each article has less than 25% plagiarism. The ICMED 2021 peer-reviewed and accepted papers have been edited as conference proceedings to be published with E3S Web of Conferences (Open Access proceedings in Environment, Energy and Earth Sciences), which is indexed by Scopus, CPCI (Web of Science), Google Scholar, CAS, DOAJ, EBSCO, ProQuest and Ei Compendex. As editors of this special issue of the ICMED 2021 proceedings, we wish to express our sincere gratitude to the plenary speakers, authors, participants, reviewers, program and technical committee members, and organizing members; who have contributed in organization of the conference and publication of this special issue. With high standard and high-quality submissions and presentations in the ICMED, we are very much sure, one day ICMED will become a leading conference in this specific academic area of 'Design and Manufacturing Aspects for Sustainable Energy'. A Total of 85 papers are published out of 130 papers received

3rd INTERNATIONAL CONFERENCE ON DESIGN AND MANUFACTURING ASPECTS FOR SUSTAINABLE ENERGY (ICMED2021)

24-26 September 2021

International Conference on Design and Manufacturing Aspects for Sustainable Energy (ICMED) focuses primarily on sustainable energy and design aspects in the manufacturing process in manufacturing the components but encompasses perspectives from various engineering disciplines. This conference is the place for you to present your research and expertise, while also learning from and connecting with thousands of researchers on a global level.

At International Conference on Design and Manufacturing Aspects for Sustainable Energy you'll experience basic discovery to translational application of new technologies and foster collaborations that engage stakeholders and partners not only from academia, but also from national laboratories, industry and government funding agencies. No other conference will provide you with broad, but salient perspectives on knowledge-sharing on technical advances within Sustainable Energy and design in manufacturing.
